

10/29/2015

**Locker Rental Agreement**

You must have a valid Community Recreation Center membership to rent a locker.

All members with lockers must have a locker sticker attached to their membership card identifying their locker ID number.

Locker users must have their rental fees current before the locker/membership expiration date of their card.

Contents from expired lockers will be cleaned out and bagged by the Community Recreation Center after one week (seven days) and stored for six months.

It is recommended that lockers be emptied every August for the performance of Annual Maintenance. All items left in expired lockers during this time will be removed and donated to the Idaho Youth Ranch if not claimed within six months.

Community Recreation Center staff has the authorization to enter your locker at any time (i.e. due to excessive odor, maintenance, or emergency).

To reclaim items removed from expired lockers during the six month period, patrons must present a photo ID at the front desk and pay a \$10 recovery fee for items.

Any personal lock removed due to non-payment will not be returned or replaced.

The Community Recreation Center is not responsible for items stored in lockers or the disposal thereof. The Community Recreation Center is not responsible for items inside the locker if the locker is left unsecured for any period of time. The renter also agrees that if his/her Community Recreation Center membership becomes invalid at any time during the rental period of the locker, Community Recreation Center staff will remove all items from the locker and renter will lose the rights to that locker.

Any damage to the locker will be charged to the renter.

Locker renter must pay their locker fee in the same manner in which they pay for their membership (i.e. both membership and rental fee must be paid through bank draft, both paid monthly, or both through corporate payment).

I have read, understand, and agree to the above policy.
